

Submit your poster Until 19 February

How can I submit a poster?

Please go to [submit abstract](#). You will automatically receive a confirmation email. If you have any technical difficulties, please feel free to contact us directly. Please make sure that the file is not larger than 5 MB. Also, please do not forget to register online for the conference!

Will my abstract be accepted?

Your abstract will be forwarded to the scientific committee for review. We will contact you as soon as possible to let you know if your poster has been accepted.

Is there a specific format?

Yes, please use the poster template found [here](#). Since the conference and poster session are purely digital, additional contributions such as a short video, an audio file of you explaining the topic of your poster, or other additional material are very welcome. Please send us your poster in PPT or pdf format.

How will the poster be presented?

We have two dedicated poster sessions at the end of each conference day. We will provide you with a schedule and during this time you will present your poster live to the attendees. The poster and associated files will be uploaded and made available on the conference website.

How do I need to present my poster?

We will create a schedule for each poster author to present their poster during a live session at the conference. This schedule will be communicated to you prior to the conference - please make sure to block the poster session slot in your calendar (you can find the schedule online on the conference website).

All you need to do is join the conference using the link sent to you. The moderator will call on you and the organizers will introduce your poster. Then you will have about two minutes to make an „elevator pitch“. Please briefly explain the idea and topic of your poster and how it relates to the conference/session. Simple enough J

What if I have questions?

If you have any questions or concerns, please feel free to contact: jennifer.oborny@iwks.fraunhofer.de.
